

LIGHTING POWERED FOR TOMORROW

In the ever competitive energy markets, utilities and power generators are turning to strategies to keep their operating costs competitive while meeting increasing demand. Be it fossil fuel, solar, geothermal or nuclear as the source, these challenges must be addressed. Taking a second look at your electrical systems, specifically lighting, can slash energy consumption and reduce long term operating costs.

Holophane understands the exceptionally demanding lighting requirements for this industry. We pride ourselves in manufacturing and delivering energy efficient, low maintenance products that operate safely in the harshest environments. Holophane's lighting solution, customized based on your operating needs, will provide reliable performance with minimal maintenance for years to come.

HOLOPHANE[®]
LEADER IN LIGHTING SOLUTIONS

The One Source Solution for Power Plant Facilities

Holophane has been an innovative force in optical technology and lighting product development since 1898. Our Total Lighting Solution Offering is ideal for the growing power plant market.

Holophane's Indoor product offering delivers optimal, efficient lighting performance in hostile corrosive environments including those that are classified as hazardous. High quality design and robust materials ensure that the luminaires operate in a broad range of applications and ambient temperature conditions.

The Outdoor product line offers a complete selection of luminaires to handle your site lighting needs. The outdoor luminaires are designed with strong mechanical attributes for ease of installation and maintenance and the optical systems ensure the best performance for roadway and area applications.

Luminaires may utilize fluorescent or high intensity discharge sources that contain small amounts of mercury. New disposal labeling for these lamps includes the mercury identifier shown on the left to indicate that the  lamp contains mercury and should be disposed of in accordance with local requirements.

Information sources regarding lamp recycling and disposal are included on the packaging of most mercury-containing lamps and also can be located at www.lamprecycle.org.

Product specifications may change without notice. Please contact your local Holophane factory sales representative for the latest product information.
